

Think NEXUS US Workshop 2019

The **Next Generation Internet (NGI)** is the initiative with the mission to define the baseline for the Internet of the future as a powerful, open, user-centric ecosystem.

Think NEXUS is its public Think Tank to identify the gaps and opportunities for a stronger collaboration between Europe and the US in this context.

In this full-day workshop, Internet Experts from both sides of the Atlantic will have the chance to share knowledge, experiences and recommendations in 3 Working Groups
